Introduction

We are very much proud to introduce ourselves as a highly professional leading contractor in the HVAC Industry in UAE. The company was established in 2007 with a view to provide high standard of quality and service to our most valuable customers in an economical and cost-effective policy manner.

Our professional team is well equipped to handle any kind of HVAC related projects with an experienced design team for developing shop drawings with calculations to complete the projects in the specified time frame.

The super active squad of technicians are ready for installation and maintenance of Package Units, Chilled Water AHU's, FCU's and DX Units. We are manufacturing and installing GI Ducts, Pre-insulated Ducts as per international standards and with best quality to meet the Customer requirements. Our experts are also engaged in Kitchen Hood Ducting, Cladding Works etc. For the Chilled Water Piping and Insulation work a special wing of Pipe Fitters is available.

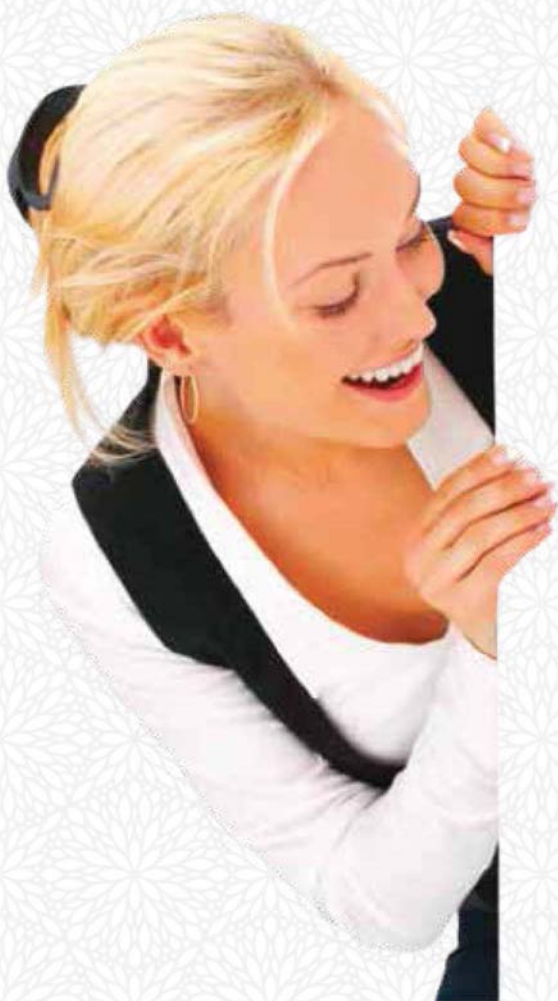

We believe in good quality works to ensure a trouble free handover to our valuable customers. Our good quality works and timely handover of the project has provided full customer satisfaction to the corporate customers & branded companies in our client list. We believe that our experience and knowledge shall certainly be an additional support to your esteemed organization.

Please let us also be enrolled in your Vendor List System. Awaiting for a meeting with your Procurement Department for the finalization of the work.

Thanks & Regards

Managing Director
